

# Rack Mounted Guard

## Flexible solution to protect your racking and its contents.

Our Rack Mounted Guard is an easy-to-install, high-strength solution to protect your racking & its contents. The polyethylene body provides strength and durability to absorb impacts and is flexible to suit a variety of racking sizes. Just wrap the velcro straps around the racking leg and you're done.

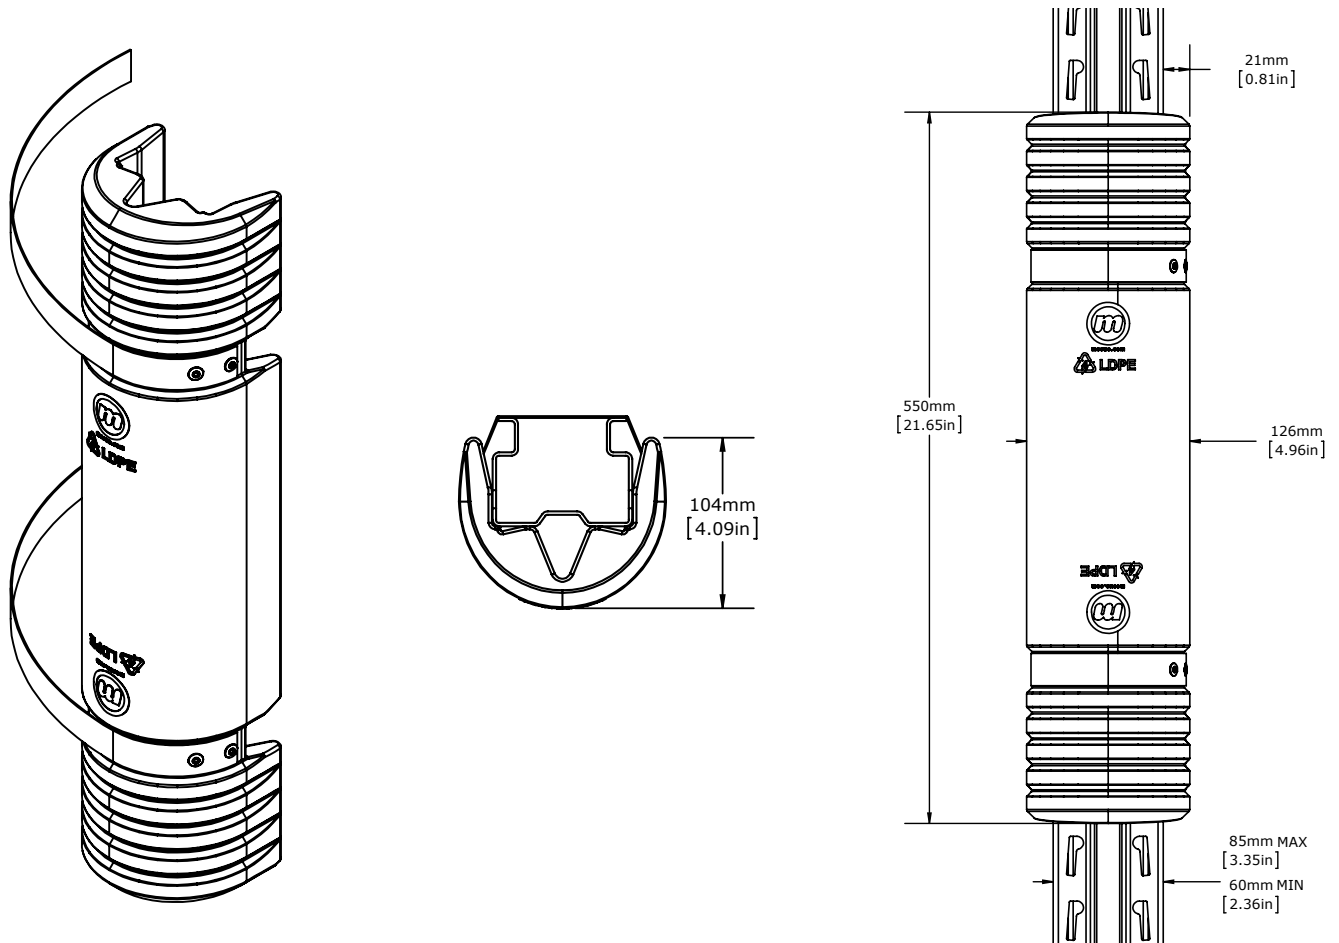

**Energy Absorbing Design** Polyethylene body flexes open to absorb impact energy

**Adjustable** Protects a variety of rack sizes from 2 $\frac{3}{8}$ " (60mm) to 3 $\frac{3}{4}$ " (85mm)

**Quick Installation** Quick and easy installation using velcro fastener straps

# Rack Mounted Guard

**Rack Mounted Guard Kit Materials:** Polyethylene body, hook & loop straps

Rack Mounted Guard
